| <p>Teaching/Learning Methodology</p> | <p>Lectures provide students the main concepts of the topic, together with comprehensive examples for easy understanding.</p> <p>Tutorials and lab sessions offer an opportunity to students for practicing their algorithmic analysis, design, and implementation techniques.</p> <p>Both written and programming assignments will be utilized in the course. Written assignments help students develop analysis and design skills, whereas programming assignments emphasize on implementation skills.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
